PROFESSIONAL SUMMARY

Full-Stack Software Engineer with 5+ years of experience building and owning mission-critical systems across mobile and web platforms. Deep expertise in React, React Native, TypeScript, Node.js, and AWS serverless infrastructure. Track record of leading end-to-end delivery — from architecture and system design to production operations — across high-traffic consumer products in payments, ordering, authentication, and loyalty domains.

TECHNICAL SKILLS

- **Languages:** TypeScript, JavaScript
- **Frontend Development:** React.js, Vue.js, Next.js, React Native, Vite, HTML5, CSS3, Responsive UI
- **Backend Development:** Node.js, Express.js, NestJS, Spring Boot, RESTful API, Serverless Architecture
- **Cloud & Infrastructure:** AWS (Lambda, EC2, S3, RDS, DynamoDB, SQS, API Gateway), Serverless Framework
- **Databases:** PostgreSQL, MySQL, DynamoDB, TypeORM
- **Integrations & APIs:** Stripe, Plaid, SendGrid, Airtable, Calendly, OpenAI APIs
- **DevOps & Tools:** Docker, Kubernetes, CI/CD Pipelines, Jenkins, Bitbucket, Datadog, Git
- **CMS & Platforms:** Drupal

WORK EXPERIENCE

HDWEBSOFT TECHNOLOGY CO.,LTD

Apr 2024 - Present

FULL-STACK SOFTWARE ENGINEER

- Owned full-stack development of customer-facing and internal platforms using React, NestJS, and AWS serverless infrastructure (Lambda, S3, DynamoDB, SQS, API Gateway).
- Architected and implemented RESTful APIs and serverless backend services supporting high-traffic production workloads.
- Integrated third-party services — Stripe, Plaid, SendGrid, OpenAI — into core product workflows, reducing manual processing overhead.
- Improved PostgreSQL query performance through execution plan analysis and index optimization, reducing critical query latency.
- Delivered production-ready features across multiple concurrent products while maintaining deployment stability and system reliability.

Tech Stack:

- Frontend: React, Vue.js, Next.js, TypeScript
- Backend: Node.js, Express.js, NestJS
- Cloud: AWS Lambda, S3, DynamoDB, SQS, API Gateway, Serverless
- Database: PostgreSQL, MySQL, TypeORM
- Integrations: Stripe, Plaid, SendGrid, OpenAI
- DevOps: Docker, Kubernetes, CI/CD, Git

TOYAR INC CO.,LTD

FULL-STACK SOFTWARE ENGINEER • Work remotely

Jul 2023 - May 2025

- Owned full-stack development of FidoBox e-commerce and FidoVN classified platforms across web (React, Vite) and mobile (React Native), covering architecture, implementation, and production operations.
- Designed and implemented secure RESTful APIs and backend services using Spring Boot, supporting core platform workflows across both products.
- Managed and optimized production infrastructure on AWS (EC2, RDS, S3, Lambda); improved PostgreSQL query performance through execution plan analysis and targeted index optimization.
- Established CI/CD pipelines via Jenkins and Bitbucket, improving deployment reliability and reducing release friction across environments.
- Led architecture design sessions, conducted code reviews, and mentored junior developers to maintain codebase quality and team velocity.

Tech Stack:
React.js, React Native, Vite, JavaScript, Spring Boot, REST APIs, PostgreSQL, AWS (EC2, RDS, S3, Lambda), Jenkins, Bitbucket, Datadog, CI/CD, Git.

CAVA GROUP, INC

Jun 2020 - May 2023

FULL-STACK SOFTWARE ENGINEER • Work remotely

- Architected and delivered end-to-end features for CAVA's mobile and web platforms (React, React Native), owning the full SDLC — from system design and implementation to QA, release, and post-release support.
- Built and maintained mission-critical systems — digital payments, authentication, ordering, and loyalty — ensuring scalability, reliability, and performance at scale.
- Led system architecture and infrastructure improvements, increasing observability, monitoring coverage, and operational scalability across high-traffic production environments.
- Drove incident response, RCA documentation, and remediation; owned database performance tuning, capacity planning, and WCAG accessibility compliance across customer-facing surfaces.
- Coordinated cross-functional stakeholders, external partners, and vendors to align delivery with business goals; managed App Store release cycles and technical support programs.

Tech Stack:
React, React Native, TypeScript, Node.js, PostgreSQL, AWS (EC2, RDS, S3, Lambda), Datadog, CI/CD, Git

PHASE2 TECHNOLOGY

Nov 2019 - Jun 2022

SOFWARE ENGINEER • Part-time, remote

- Developed web applications and business systems using JavaScript, PHP, Java, and Drupal CMS.
- Built custom Drupal modules and implemented complex client requirements.
- Worked on multiple international projects including New York Stock Exchange and Associated Press platforms.
- Delivered scalable and maintainable code solutions across diverse industry domains.
- Collaborated with cross-functional teams to translate business requirements into technical implementations.

Tech Stack:
JavaScript, PHP, Drupal, Java, HTML, CSS, REST APIs, CMS Development, Git.

OTHER EXPERIENCE

MINDX TECHNOLOGY SCHOOL

Oct 2020 - Mar 2024

TECHNICAL INSTRUCTOR & INSTRUCTOR MANAGEMENT

- Taught full-stack web development (React, Node.js, Next.js, React Native) to students and delivered technical workshops across multiple branches.
- Mentored and managed 50+ instructors, contributing to curriculum design and training quality improvement.

EDUCATION

Full-Stack Development Certificate

Issued by: MindX Technology School - 2019

Mobile App Development Certificate

Issued by: MindX Technology School - 2020
